~All Are Welcome~

The Department of Music wishes to invite all to join in our weekly screenings of selected classic films, which will showcase music designed to add gripping features to the art of visual storytelling. We would like to promote the idea that sounds are integral to the audience's cinema experience. By showing films of different genres each week, we hope you take a tour with us to explore more about the classics.

This week, we are thrilled to present *The Godfather*, a classic crime film of all time directed by Francis Ford Coppola. Ranking 3rd on the AFI's 100 Years... 100 Movies list, the 3-hour-long epic features on the power transfer from the patriarch to his youngest son in the Corleone family. Murder, revenge, exile, family wars... Join us to feel the life of mafias in the 1940s America. No registration, just walk in, sit down and enjoy!
