Rehearsal Room

~All Are Welcome~

The Department of Music wishes to invite all to join in our weekly screenings of selected classic films, which will showcase music designed to add gripping features to the art of visual storytelling. We would like to promote the idea that sounds are integral to the audience's cinema experience. By showing films of different genres each week, we hope you take a tour with us to explore more about the classics.

This week, we are delighted to present the vintage American musical-romantic comedy *Singin' in the Rain*. No registration, just walk in, sit down, and enjoy!
